GEMA 2009 Spanish asthma management guide

Prologue	1
Method	2
List of Acronyms	3
1. Introduction	5
1.1 Definition	
1.2 Prevalence	
1.3 Pathogenesis	
1.4 Physiopathology	
1.5 Differential Characteristics of Childhood Asthma	
2. Diagnosis	9
2.1 Clinical Features	
2.2 Pulmonary Function	
2.2.1 Adults	
2.2.2 Children	
2.3 Diagnosis of Allergies	
2.4 Classification of Adult Asthma	
2.4.1 Asthma Severity	
2.4.2 Control	
2.4.3 Methods for Measuring Control	
2.5 Classification of Childhood Asthma	
2.5.1 Asthma Severity	
2.5.2 Control	
3. Maintenance Treatment	19
3.1 Targets	
3.2 Prevention of Exacerbations and Control of Asthma	
3.2.1 Stages	
3.2.2 Inhalers and Nebulizers	
3.3 Other Treatments	
3.3.1 Environmental Control	
3.3.2 Allergen Immunotherapy	
3.3.3 Influenza and Pneumonia Vaccination	
3.4 Education	
4. Asthma Exacerbation	27
4.1 Evaluation of Severity	
4.2 Treatment	
4.2.1 Mild Exacerbation	
4.2.2 Moderate-severe Exacerbation	
4.2.3 Failure to Respond to Treatment	

4.3 Hospitalisation Criteria	
4.4 Hospital Discharge Criteria	
5. Treatment Discharge Criteria	32
5.1 Maintenance Treatment	
5.1.1 Drugs	
5.1.2 Treatment in accordance with Level of Severity	
5.2 Assesment and Treatment of Exacerbations	
5.2.1 General Considerations	
5.2.2 Assessment of Severity	
5.2.3 Drugs	
5.2.4 Therapeutic Regimes	
6. Rhinitis	37
6.1 Definition	
6.2 Classification	
6.3 Epidemiology	
6.4 Diagnosis	
6.5 Rhinitis and Asthma	
6.6 Treatment	
7. Special Circumstances	43
7.1 Asthma and Pregnancy	
7.1.1 Effects of Asthma on Pregnancy	
7.1.2 Treatment of Asthma during Pregnancy	
7.2 Difficult to Control Asthma	
7.2.1 Diagnosis and Associated Factors	
7.2.2 Treatment	
7.3 Work-related Asthma	
7.3.1 Occupational Asthma	
7.3.2 Work-aggravated Asthma	
7.4 Vocal Cord Dysfunction
