

IN MEMORIAM

## In Memoriam Javier Monsó

It is with great regret that we announce the passing of Javier Monsó Lamarca, editor of our journal, JIACI, and director of ESMON PUBLICIDAD, on July 29th, 2021, after a long illness.

A consummate professional, Javier never wavered in his readiness to meet the targets of both the editors and the Editorial Board and was always interested and ready to help. Ever since we had the good fortune to meet him in 2005, when we sought to publish JIACI with ESMON PUBLICIDAD, Javier did everything possible so that, over the years, our journal could reach the point it is now at. His willingness and thoroughness when meeting the requests of the Editorial Board and his ability to combine the most innovative techniques in scientific publication ensured that authors' expectations were also fully met. There is no doubt that Javier was a key figure in the modernization of the journal, always able to match the needs of our modest scientific society with its budget.

We all witnessed how Javier's long illness in no way diminished his energy, his love of life, or his dedication to our journal. His strength in the face of adversity has been an example to all of us.

We wish to express our heartfelt condolences to Javier's family, especially his wife Patricia and his son Sergi, together with our infinite gratitude to Javier himself.

Thank you, Javier, for everything you did for JIACI and for leaving us with the memory of the outstanding person you were. We have every confidence that your son Sergi will follow in your footsteps, working with the same care and dedication you brought to the Journal.

Thank you very much, Javier. Rest in peace.
