

## SUPPLEMENTARY MATERIAL

### Figure S1. Basophil activation test isatuximab

Basophils of the patient and a healthy control were stimulated with 250  $\mu\text{g/ml}$  isatuximab. Basophils are CD203c-positive (y-axis) and shown in the upper left quadrant; activated basophils upregulate CD203c, express CD63 (x-axis) and move to the upper right quadrant.
