SUPPLEMENTARY FIGURE: Flowchart of the study.

- Positive SARS-CoV-2–RT-PCR † patients N= 92
  - Declined to participate n= 2
  - Asymptomatic patients n=40
    - Could not answer‡ (<6 y.o.) n=20
    - Enrolled COVID-19 patients n=30
      - Olfactory and/or gustatory dysfunction n=8
        - Olfactory and gustatory dysfunction n=5
        - Gustatory dysfunction only n=3
      - Without olfactory or gustatory dysfunction n=22

† Exclusion criteria previously established.
‡ RT-PCR reverse transcription-polymerase chain reaction
